Subject: Please Deny EnergySolutions' Import Application (IW023) submission

Please copy and paste some or all of the above message into the text box below : Dear Office of the Secretary and Gov. Huntsman,

I'm writing to urge the Nuclear Regulatory Commission to deny EnergySolutions' request to import 20,000 tons of Italian nuclear waste into the U.S. This single request is many times larger than previous import licenses granted by the Commission and would therefore represent a serious departure in this country's policies for handling nuclear waste.

I am extremely concerned about the potential negative impact. How can we hope to attract new business to our community and recruit top talent within our organizations with this level of nuclear waste in our community.

The second concern is for our families and the type of community we want to build for the future. Do we just talk about family values or truly support building a healthy, well educated community of individuals that will want to continue to live in Utah.
