

March 31, 2008

RECEIVED APR 21 2008 DNMS

Nuclear Materials Licensing Branch U.S. Nuclear Regulatory Commission, Region IV 611 Ryan Plaza Drive, Suite 400 Arlington, TX 76011-4005

| Subject: | Amendment | |
|----------|-----------------|-------------|
| | NRC License No. | 53-13519-01 |
| | Docket No. | 030-03561 |

Dear License Reviewer:

Please change the authorized use for our Strontium-90 ophthalmic applicator to 'Storage only'.

In addition, please remove the following physicians from our list of authorized users:

David Dalzell, M.D. Michael May, M.D. Geoffrey M. Murrish, M.D. Hung B. Nguyen, M.D. Scott Boren, M.D. Eugene Wasson, III, M.D. Kevin C. Wilcox, M.D.

If you require any additional information please contact our radiation safety consultant, Ronal Frick at 808-373-7009.

•

Sincerely,

Wesley N Lo Chief Executive Officer

Checklist to Ensure That Radioactive Material Will Be Used as Intended

Applicant Information:

Control No. 471791

| Name: Maui Memorial Medical Center | Type of Request: Amend Program Code(s): 02120 | |
|---------------------------------------|--|-----------------------|
| Location: HI | License No.: 53-13519-01 | Docket No.: 030-03561 |

.

STEP 1, ITEM A - INITIAL SCREENING

| and dat A or Iter the type | tions for Step 1: Complete Step 1 for all applications. If Step 1, Items A and B, are "YES" then do not complete Step 2. Sign YES or e the completed form and add it to ADAMS as Non-Sensitive and Non-Publicly Available. If a "NO" response is indicated for Item NO m B, add the completed form to ADAMS as Sensitive and Non-Publicly Available, and complete Step 2 (Additional Screening). If of use is subject to a Security Order, complete Step 3, Item A, without delay. If the additional requirements for increased controls applied or voided, complete Step 3, Item B, without delay. |
|----------------------------------|---|
| А. | The applicant is a known entity or a licensee transferring control to a known entity. This determination has been made using the screening criteria in Worksheet A below. |

Worksheet A

| right. B "Yes" ir reviewe if the aj | tions for Worksheet A: Answer each of the 8 questions below by placing a "Yes", "No", or "NA" response in the column on the est practices for a reviewer are provided after each of the questions, if the answer to any of the 6 questions is "Yes", then indicate Step 1, item A, above. If the answers to all of the 8 questions is "No" then indicate "No" in Step 1, item A, above. NOTE - If the r has personal knowledge of the applicant's veracity, this can be taken into account in responding to any questions. For example, oplicant's management and/or RSO have been associated with a current or previous NRC or Agreement State license, then the in may be considered as a known entity. | YES. NG. or NA |
|--|--|----------------------|
| 1. | Does the applicant have a current Agreement State or NRC license? The reviewer should 1) confirm that a valid license/registration/authorization exists for the applicant; and 2) compare the current license to the application to verify that the application represents a reasonable expansion of the licensee's operation (i.e., medical facility adding a gamma knife or an Agreement State licensee obtaining an NRC license in order to work in NRC jurisdiction without filing reciprocity). | Yes |
| 2. | Does the applicant have a current Agreement State or NRC license at another location and the new application represents the addition of a new facility within the scope of the licensee's core business? The reviewer should contact the appropriate licensing authority to confirm that a valid license/registration/authorization exists for the applicant and the corporate office of the licensee to verify that it has knowledge of and approves of the new application. | |
| 3. | Does the applicant have a current State or Federal government license, registration, authorization, etc., for other operations within the scope of its proposed license activities? (e.g., a company authorized by a State for mining that is now requesting authorization to use fixed gauges). The reviewer should contact the appropriate government office to confirm that the license, registration, authorization, etc., is valid; and the applicant's corporate office to confirm that it has knowledge of and approves of the new application to possess radioactive materials. | |
| 4. | Is the applicant a local, State or Federal government agency? The reviewer should contact the local, State or Federal government office to confirm that the applicant is a government entity. | |
| 5. | Does the application only involve the relocation of an existing licensee, or its mailing address, to another State? This includes new licenses created from existing licenses listing locations in multiple States, in preparation for transfer of licenses to States that will shortly sign an Agreement with the NRC. | |
| 6. | Is the application only the result of a licensee failing to submit a renewal application in a timely manner? | |

STEP 1, ITEM B - INITIAL SCREENING CONTINUED

B. The applicant is requesting certain radionuclides and quantities that are less than the Risk Significant Quantity (TBq) values in Worksheet B, below, as "highlighted" by the reviewer, or is currently subject to a security order or additional requirements for increased controls. If "Yes", there is no need to proceed further.

Worksheet B - Risk Significant Quantities

(Category 2 Quantities, IAEA Safety Guide No. RS-G-1.9, Categorization of Radioactive Sources, August 2005)

| Radionuclide | Risk Significant Quantity (TBq ¹) | Risk Significant Quantity (Ci ¹) | Radionuclide | Risk Significant Quantity (TBq ¹) | Risk Significant Quantity (Ci ¹) |
|--------------|--|--|---------------------|--|--|
| Am-241 | 0.6 | 16 | Pm-147 | 400 | 11,000 |
| Am-241/Be | 0,6 | 16 | Pu-238 | 0.6 | 16 |
| Cf-252 | 0.2 | 54 | ₽u-239/Be | 0.6 | 16 |
| Cm-244 | 0.5 | 14 | Ra-226 ² | 0.4 | 11 |
| Co-60 | 0.3 | 8.1 | Se-75 | 2 | 54 |
| Cs-137 | T | 27 | Sr-90 (Y-90) | 10/ | 270 |
| Gd-153 | | 270 | Tm-170 | 200 | 5,400 |
| 1r-192 | 0.8 | 22 | Yb-169 | 3 | 87 |

The primary values are TBq. The curie (Ci) values are for informational purposes only.
 The Atomic Energy Act, as amended by the Energy Policy Act of 2005, authorizes NRC to regulate Ra-226 and NRC is in the process of amending its regulations for discrete sources of Ra-226.

| Calculations of the Total Activity or the Unity Rule were completed. NOTE-If an amendment of an existing license is being requested, the calculations. will include the previously authorized quantities for the radionuclide(s). | Yes , No, or Not Applicable (NA) |
|---|--|
| Total Activity-multiple activities are requested for a single radionuclide and the sum of the activities is less than the Risk Significant Quantity (TBq) for the radionuclide. | |
| Unity Rule-multiple radionuclides are requested and the sum of the ratios is less than 1.0, e.g.,[(total activity for radionuclide A) + (risk significant quantity for radionuclide A)] + [(total activity for radionuclide B) + (risk significant quantity for radionuclide B)] < 1.0. | |
