Dear Ms. Warren:

On April 23 and 24, 2008, the U.S. Nuclear Regulatory Commission (NRC) conducted a security inspection at your Aerotest Radiography and Research Reactor facility. The enclosed report documents the results of that inspection, which were discussed on April 24, 2008, with you and other members of your staff.

The inspection examined activities conducted under your license as they relate to security and compliance with the Commission's rules and regulations, implementation of certain compensatory measures, and compliance with the conditions of your license. The inspector reviewed selected procedures and records, observed activities, and interviewed personnel. Based on the results of this inspection, no findings of significance were identified.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS).
