Good afternoon, my name is Nathan Smith

I was just writing you this email to say I am gravely concerned with the proposed Nuclear reactor in Alabama. I really cannot sit by quietly while a potential nuclear bomb is built near my hometown. Why are we building easy sites to attack while at war against global terrorism. This is a terribly short sighted decision, and please for all our sakes do everything you can to stop this plants construction.

Thank you for your time,

Nathan Smith
