OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Don't let the United States become the world's radioactive waste dumping ground!
I urge the Nuclear Regulatory Commission to deny license applications ~~IW023 and~~
~~XW013~~. These applications would allow Energy Solutions to import some 20,000 tons--a
million cubic feet--of radioactive waste from Italy into the United States. Energy
Solutions proposes to ship this waste into SC and LA, "process" it in Tennessee, where it
could be incinerated, dumped in regular trash landfills, or "recycled" into consumer and
industrial goods, and then ship the remainder to Utah for shallow land burial.

This scheme is fraught with unnecessary danger, could increase radiation exposures to
the public, and would set a terrible precedent. The United States must not become the
dumping ground for the world's radioactive waste. These applications must be rejected.
