752 (Amarillo Power), 759 (UniStar Nuclear), and
763 (PPL)
Scheduled Combined License Applications

- References:
- 1) Letter from Bryce L. Shriver (PPL) to U.S. Nuclear Regulatory Commission, "Notification of Intent to Submit a Combined License Application," date May 24, 2007
 - 2) Letter UN#07-005, from R. M. Krich (UniStar Nuclear) to U.S. Nuclear Regulatory Commission, "UniStar Nuclear, NRC Project No. 733 (AREVA NP), 746 (UniStar Nuclear), 750 (AmerenUE), and 752 (Amarillo Power), Response to Regulatory Issue Summary 2007-08, Updated Licensing Submittal Information to Support the Design-Centered Licensing Review Approach," dated May 31, 2007

UniStar Nuclear Energy (UNE) is providing updated schedule projections supporting the Nuclear Regulatory Commission (NRC) resource estimate development. As previously stated for these projects, no decision to build a U.S. EPR at these sites has been made at this time.

Page 2

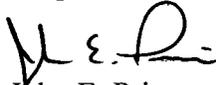

On May 24, 2007 (Reference 1), PPL Generation (PPL) advised the NRC of the intent to submit a Combined License application during the third quarter of calendar year 2008. This COL has been designated for the Bell Bend project (formally known as the Berwick project) and is planned to be submitted in September 2008.

In our response to NRC RIS 2007-08 (Reference 2), UNE identified "UND/Constellation Generation Group" for which a COL would be prepared and submitted to the NRC in the fourth quarter of 2008. This COL has been designated for the Nine Mile Point project and is planned to be submitted in September 2008.

In our response to NRC RIS 2007-08 (Reference 2), UNE identified "UND/Amarillo Power" for which a COL would be prepared and submitted to the NRC in the fourth quarter of 2008. This COL has been deferred and is planned to be submitted in the fourth quarter 2009.

If you have any questions or need additional information. Please contact me at (410) 470-5531.

Respectfully,

John E. Price
UniStar Nuclear Energy
