Subject: UniStar Nuclear Energy, NRC Project # 750
Union Electric Company (d/b/a AmerenUE)
Callaway Plant Unit 2
COL Application Expected Submission Date

Reference: NRC Regulatory Issue Summary 2008-01, "Process for Scheduling
Acceptance Reviews Based on Notification of Applicant Submission
Dates for Early Site Permits, Combined Licenses, and Design
Certifications and Process for Determining Budget Needs for Fiscal Year
2010," dated January 10, 2008

In the reference Regulatory Issue Summary (RIS) the NRC has requested that, 90 days prior to the expected submission date, applicants declare their expected submission date (month, day, year) to the NRC for each early site permit (ESP), limited work authorization (LWA), standard design certification (DC), and partial or complete combined operating license (COL) application.

This letter provides the voluntary response to the request. Union Electric Company (d/b/a AmerenUE) expects to submit a complete COL application for the proposed Callaway Plant Unit 2 to be located in Callaway County, Missouri on or before August 4, 2008.

If you have any questions or need additional information, please contact me at (410) 470-5531 or Dave Shafer at (573) 676-4722.

Respectfully,
