OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

To whom it may concern:

I would like to make my views on foreign nuclear waste known. I do not think the United States should accept foreign nuclear waste in any way, shape or form. Here in Utah the company called Energy Solutions is talking about accepting nuclear waste from foreign countries and storing it in Utah. I am against this practice no matter where the waste is to be stored. I feel that we have enough nuclear waste storage problems of our own without inviting other countries to make the United States their dumping ground. Let other countries deal with their own nuclear waste and not expect to dump it in any other country.

Sincerely,

Kristine Brown
