License Assistance Team,

Please find enclosed the information needed for Transfer of Control of NRC License 45-31175-01. I am applying on the behalf of Dilon Technologies in Newport News, Virginia. The application is for a "name change", from "Dilon Technologies, LLC" to "Dilon Technologies, Inc."

I have also enclosed a letter of introduction from our new President and CEO, Bob Moussa.

I will remain as the Radiation Safety Officer for Dilon. I am available to answer any questions pertaining to the Transfer of Control Application. Please don't hesitate to contact me. My contact information is listed below. Thank you.

Sincerely,

Dr. Benjamin Welch

Information Needed for Transfer of Control

Definitions:

Control: Control of a license is in the hands of the person or persons who are empowered to decide when and how that license will be used. That control is to be found in the person or persons who, because of ownership or authority explicitly delegated by the owners, possess the power to determine corporate policy and thus the direction of the activities under the license.

Transferee: A transferee is an entity that proposes to purchase or otherwise gain control of an NRC-licensed operation.

Transferor: A transferor is an NRC licensee selling or otherwise giving up control of a licensed operation.

Licensees must provide full information and obtain NRC's **prior written consent** before transferring control of the license. Provide the following information concerning changes of control by the applicant (transferor and/or transferee, as appropriate). If any items are not applicable, so state.

1. Provide a complete description of the transaction (transfer of stocks or assets, or merger). Indicate whether the name has changed and include the new name. Include the name and telephone number of a licensee contact who NRC may contact if more information is needed.
2. Describe any changes in personnel or duties that relate to the licensed program. Include training and experience for new personnel.
3. Describe any changes in the organization, location, facilities, equipment or procedures that relate to the licensed program.
4. Describe the status of the surveillance program (surveys, wipe tests, quality control) at the present time and the expected status at the time that control is to be transferred.
5. Confirm that all records concerning the safe and effective decommissioning of the facility will be transferred to the transferee or to NRC, as appropriate. These records include documentation of surveys of ambient radiation levels and fixed and/or removable contamination, including methods and sensitivity.
6. Confirm that the transferee will abide by all constraints, conditions, requirements and commitments of the transferor or that the transferee will submit a complete description of the proposed licensed program.

Dilon Technologies
Transfer of Control Application

NRC NUREG-1556, Vol. 15 - Appendix F
Answers to Questions

Question 1: Description of Transaction

Name Change on License 45-31175-01:

Current Name on License: Dilon Technologies, Inc

Previous Name on License: Dilon Technologies, LLC.

Contact: Benjamin L. Welch, (757) 269-4910 ext 306

Question 2: Changes in Personnel

President and CEO of Dilon Technologies

Current President of Dilon Technologies: Bob Moussa

Previous President of Dilon Technologies: Lon F. Slane

Question 3: Changes in Organization

There will be no changes to the organization, location, facilities, equipment, or procedures.

Question 4: Status of Surveillance Program

The surveillance program includes annual wipe tests of solid source, annual calibration of survey instruments and Hot Lab surveys after any liquid radioisotope use. These will not change after the control is transferred.

Question 5: Record Transfer

All records concerning the safe and effective decommissioning of the facility will remain at the facility and will not be affected by the transfer of control.

Question 6: Constraints, Conditions, Requirements, and Commitments

The administration of Dilon Technologies, Inc. will abide by all of the constraints, conditions, requirements, and commitments of Dilon Technologies, LLC.

Subject: RE: New Pesident and CEO

Hey Ben,

The change in Pres/CEO only matters if it effects the radiation safety program (i.e., he is the new RSO or something). Otherwise, we don't need to be notified officially of that.

However, the name change does require an amendment to the license. The easiest thing to do is to send a letter to us with the completed "6 Questions" attached re: change of control. I realize this is probably a "name-change" only, but this is the process we use to review such matters. Below is a link to NUREG-1556, Vol. 15 which gives guidance on change-of-control matter:

<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v15/>

Please print out Appendix F and send with answers. You may need your legal eagles to help with the wording, but we don't need reams of info - just basic answers will do.

Send the amendment letter to the King of Prussia, PA address below in my signature block, with "ATTN: LAT" marked on it. If you have further questions, please let me know.

Subject: New Pesident and CEO

Dear Bryan Parker,

Dilon Technologies has a new President and CEO, Bob Moussa, and since he is the Administrative Authority on our NRC license I thought it appropriate that we notify you of the change. I am sending this email to notify you and also to ask if this will be sufficient notification or if I/he should send an official letter of notification.

Dilon Technologies has also change from "Dilon Technologies, LLC" to "Dilon Technologies, Inc." and is using "Dilon Technologies" as the company name of letterhead and correspondences.

Please let me know if there is any other information that you will need form me with regards to these changes.

License Assistance Team,

I would like to introduce myself as the new President and CEO of Dilon Technologies. I have reviewed the Transfer of Control Application that is being submitted to the Nuclear Regulatory Commission on behalf of Dilon Technologies and concur with the statements and representations contained therein. Dr. Benjamin Welch will serve as our Radiation Safety Officer and the main point of contact on technical matters. Feel free to contact me directly on matters that you feel are appropriate. My contact information is listed below. Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read "Bob Moussa", written over a horizontal line.
