2) Letter from NRC to B.M. Moore, Acceptance of Revision 11 to Emergency Plan, dated November 28, 2007 (TAC L32638)

Subject: **Transmittal of NFS Emergency Plan, Revision 12, dated March, 2008**

Dear Sir:

Nuclear Fuel Services, Inc. (NFS) is hereby submitting six (6) controlled copies of the NFS Emergency Plan, Revision 12, dated March 2008. Revision 12 has been reviewed and approved by the NFS Safety and Safeguards Review Council (SSRC). Revision 12 replaces Revision 11, dated March, 2007. Revision 11 should be destroyed or returned to NFS. Plant drawing, **Figure 1-3**, has been revised to include building numbers as recommended in Reference 2. Please note that Revision 12 has been stamped with the Department of Energy (DOE) designation of "Official Use Only."

In accordance with 10 CFR Part 70, Section 70.32 (i), NFS has determined that the changes reflected in Revision 12 due to the annual NFS review and update do not decrease the effectiveness of the Emergency Plan, and an amendment of SNM License 124 is not requested.
