Subject: New reactors in Georgia

ADAMSAccessionNumber:ml081150360

To the Atomic Safety and Licensing Board.

Georgia is in a period of drought. Nuclear reactors require huge amounts of water to build and to run. That alone should be enough to tell you new reactors at Plant Vogtle is not a good idea.

Atomic energy is not clean. We still don't know what to do with the waste. Do not saddle Georgia with this unwise energy source.

Please deny the Souther Company's proposal to build new reactors at Plant Vogtle.

Sincerely,

Joan O. King
