KEWAUNEE POWER STATION
GENERIC LETTER 2008-01, MANAGING GAS ACCUMULATION IN EMERGENCY CORE
COOLING, DECAY HEAT REMOVAL, AND CONTAINMENT SPRAY SYSTEMS
THREE-MONTH RESPONSE CONTAINING ALTERNATIVE ACTIONS

Generic Letter (GL) 2008-01 requires a nine-month written response providing the information requested in the GL. A three-month written response is required if a licensee proposes an alternative course of action, including schedule considerations. In a telephone conversation between the NRC (Mr. J. S. Wermiel) and Dominion (Mr. D. A. Sommers) on April 3, 2008, the NRC staff agreed to a thirty-day extension (i.e., until May 11, 2008) for Dominion to submit the GL 2008-01 three-month response in order to address evolving positions on confirmatory walkdowns. A letter confirming this agreed upon extension was transmitted to the NRC on April 7, 2008 (Dominion Serial No. 08-0013).

The purpose of this letter is to inform the NRC that a portion of the Dominion fleet will not complete all the activities that will be discussed in the nine-month response to GL 2008-01 before the required nine-month response date (i.e., October 10, 2008). All the activities requested by the Generic Letter will be complete by the required response date with the exception of confirmatory walkdowns inside containment. Specifically, Dominion's completion of walkdowns to confirm gas accumulation management plans on associated systems are needed in fall 2008 and spring 2009 refueling outages at four units in the Dominion fleet. These unit outages are not aligned with the requested response schedule for GL 2008-01, and are as follows:

Millstone Power Station Unit 3 (MPS-3):	fall 2008
North Anna Power Station Unit 2 (NAPS-2):	fall 2008
North Anna Power Station Unit 1 (NAPS-1):	spring 2009
Surry Power Station Unit 1 (SPS-1):	spring 2009

Dominion will provide a response to GL 2008-01, consistent with the Generic Letter's requested schedule by October 10, 2008 that will address the required aspects of the Generic Letter for the Dominion fleet. However, Dominion requests additional time after completion of the confirmatory walkdowns in the fall 2008 and spring 2009 outages to submit supplemental responses. The first supplemental response (containing information on MPS-3 and NAPS-2) will be submitted by January 15, 2009 and the second supplemental response (containing information on NAPS-1 and SPS-1) will be submitted by July 15, 2009.

Please contact Mr. David A. Sommers at (804) 273-2823 if you have any questions or require additional information.

Sincerely,

Gerald T. Bischof
Vice President Nuclear Engineering
Virginia Electric and Power Company
Dominion Nuclear Connecticut, Inc.
Dominion Energy Kewaunee, Inc.

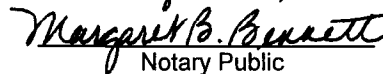

COMMONWEALTH OF VIRGINIA)
)
COUNTY OF HENRICO)

The foregoing document was acknowledged before me, in and for the County and Commonwealth aforesaid, today by Gerald T. Bischof, who is Vice President – Nuclear Engineering of Virginia Electric and Power Company, Dominion Nuclear Connecticut, Inc. and Dominion Energy Kewaunee, Inc. He has affirmed before me that he is duly authorized to execute and file the foregoing document in behalf of that company, and that the statements in the document are true to the best of his knowledge and belief.

Acknowledged before me this 8th day of May 2008.

My Commission Expires: August 31, 2008.

Notary Public
