AGENDA

BWX TECHNOLOGIES, INC.

June 12, 2006

9:00am to 12:00noon

Location: BWXT Lynchburg VA

The purpose of this meeting is to discuss with BWXT any site-specific information that might assist the NRC in determining the feasibility of developing facility-specific performance indicators (PIs) that could be of use in NRC's licensing and oversight process. At the meeting, BWXT is anticipated to provide its constructive feedback on the list of 21 potential PIs proposed by the NRC by letter dated May 30, 2006. BWXT is also anticipated to provide several examples of facility-specific process information which when applied to the potential PIs would result in the development of facility-specific PIs and PI thresholds.
