Dear Ms. Morrell:

We have received your application for renewal of Materials License SNM-42 transmitted by letter dated June 30, 2004. Your request has been assigned Technical Assignment Control (TAC) Number L31836. Please reference this number in any future correspondence associated with this activity. You stated in your letter that your application was prepared in accordance with applicable provisions of 10 CFR 70.21 and 10 CFR 70.22. Your application requested a 20 year renewal period.

This letter is to inform you that your application meets the requirements of 10 CFR 70.38 for timely renewal and contains the necessary information for the NRC staff to begin its review. Due to higher priority work and resource limitations, and in recognition of the fact that the staff is currently reviewing your Integrated Safety Analysis Summary and License Reformat requests and your license does not expire until September 30, 2005, the staff's technical review of the renewal application will not begin until the June of 2005. We will promptly communicate any significant changes to this schedule.

In addition, a copy of your submittal has been forwarded to the License Fee and Accounts Receivable Branch, Office of the Chief Financial Officer, who will contact you separately for billing as your request is subject to full cost fee recovery.
