BWX Technologies, Inc.
Nuclear Products Division
P.O. Box 785
Lynchburg, VA 24505-0785

SUBJECT: REVIEW OF FACILITY CHANGES AND THE INTEGRATED SAFETY
ANALYSIS SUMMARY ANNUAL UPDATE FOR CALENDAR YEARS 2005
AND 2006 (TAC L32616)

Dear Ms. Morrell:

This letter is in reference to your letters dated January 27, 2006, and January 30, 2007, which transmitted a list of facility changes made to the BWX Technologies, Inc., facility during calendar years 2005, and 2006, respectively. Our review of your submittals, as well as the information discussed during the teleconferences on June 19, 2007, and June 20, 2007, did not identify any non-compliances with the requirements of 10 CFR 70.72, and did not identify any changes that would require prior U. S. Nuclear Regulatory Commission (NRC) approval. We have no further questions at this time; however, an inspection may be performed at a future date, in accordance with our inspection schedule.

In future submittals of annual 10 CFR 70.72 internally authorized facility changes, we recommend that you continue to indicate: (1) if a change was physically made to a structure, system, or component, and (2) the document(s) modified due to the change. This will facilitate a more efficient risk-informed review.

This letter indicates the completion of our review and closes Technical Assignment Control Number L32616.

If you have any questions regarding this letter, please contact the Joel S. Wiebe at (301) 492-3114, or via e-mail to jsw4@nrc.gov.
