Minh Hoac, RSO	Hercules, Incorporated Louisiana, MO	573-754-6211 ext 362 FAX -5628

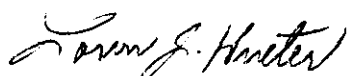

SUBJECT
Control No. 315814 -- Re - Notification by letter dated November 5, 2007, regarding the planned removal, within the next 30 days, from subject licensee's (NRC License No. 24-03060-01) facility of 9 Ohmart or Amersham/K-ray fixed gauges containing sealed sources of Cs-137, for proper disposal by Ohmart/VEGA, a licensed and certified contractor.

SUMMARY
In a telephone conversation with Mr. Hoac on this date, the notification described above was discussed and Mr. Hoac was asked to provide the following information after Ohmart/VEGA (34-00639-04) has taken possession of the sources:

1. A copy of a record confirming Hercules transfer (including date of transfer) of each source/device (make, model and serial number) to Ohmart/VEGA.
2. A copy of a leak test record, current as of the date of transfer, confirming the non-leaking status of each source transferred.
3. A copy of a record from Ohmart/VEGA confirming their receipt (including date of receipt) of each source/device (make, model and serial number) received from Hercules.
4. If you no longer possess any of certain make and model of gauges and if you want to amend the license to remove these make and model of devices from your license, please confirm that you have never had in your possession any of these devices which developed a leaking source, confirmed by routine leak test data, if indeed this is factual. However, if a leaking source has been involved, then a detailed survey for removable and fixed contamination is required which demonstrates that the contamination levels meet NRC release criteria, and a copy of this survey must be provided for our review/evaluation, before we can delete the make and model of device from the license.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this conversation record will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

ACTION REQUIRED
Please **provide, as additional information to Control No. 315814**, responses to the items requested above. Please **send responses to me by facsimile (630-515-1078)**. **No followup hard copy is needed.** Please **call me at 630-829-9829** with any questions and **as soon as you have sent response.**
