South Texas Project
Units 3 and 4
SWG-2007-786; Preliminary Jurisdictional Delineation Report

Reference: Letter, K. Jaynes (USACE) to S. Dannhardt (STPNOC), "SWG-2007-786; Jurisdictional Determination, South Texas Project Nuclear Operating Company, Units 3 and 4, Matagorda County, Texas" dated March 19, 2008.

The referenced letter identified the presence of waters of the United States subject to the jurisdiction of the United States Army Corps of Engineers (USACE) at the STP site. Those waters were Little Robbins Slough and possibly other waters, including wetlands, within the site boundaries. The referenced letter also recommended that STPNOC submit a Preliminary Wetland Delineation to USACE for verification prior to the initiation of any construction activities.

Attached to this letter is a copy of a report titled "Preliminary Wetland Delineation Report - Unit 3 and 4 Licensing Project" prepared by ENSR Corporation and dated April 2008. This report identifies and delineates each of the wetlands and other water bodies potentially subject to the jurisdiction of the USACE. STPNOC requests a formal verification of these delineations as well as the jurisdictional status of the waters identified in the report.

Please feel free to call me at (361) 972-4626 or Russell W. Kiesling at (361) 972-4716 should you wish to schedule a site visit or have any questions regarding this verification request.

A handwritten signature in black ink, appearing to read "Gregory T. Gibson", written over a horizontal line.
