MEMORANDUM TO: File

FROM: Richard Chang, Project Manager
Special Projects Branch
Decommissioning and Uranium Recovery Licensing Directorate
Division of Waste Management and Environmental Protection
Office of Federal and State Materials
and Environmental Management Programs

SUBJECT: TELEPHONE CALL LOG REGARDING REVIEW OF WESTERN
NUCLEAR INC.'S FEBRUARY 2008 SURFACE WATER AND
GROUNDWATER MONITORING REPORT

On February 29, 2008, Richard Chang, U.S. Nuclear Regulatory Commission (NRC) Project Manager for Western Nuclear Inc. (WNI) called Lawrence Corte, President of WNI to discuss NRC staff's concern that the monitoring wells as listed in license condition 74. B of WNI's license are not in compliance with the groundwater protection standards. During this discussion WNI staff agreed that the standards appeared higher than allowed in LC 74.B. The licensee committed to apply for an alternate concentration limit for the wells that are over the groundwater protection standards. NRC attendees were: Richard Chang; and Stephen Cohen. Licensee attendees were: Lawrence Corte; and Mark Plessinger.
