May 14, 2008

Robert J. Lewis, Deputy Director  
Division of Materials Safety and State Agreements,  
Office of Federal and State Materials and Environmental Management Programs  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

Dear Mr. Lewis:

The attached files contain copies of proposed revisions to the Massachusetts Regulations for the Control of Radiation (MRCR), each file identifies the regulations to be amended by title and Massachusetts code number. The proposed revisions are being presented to Massachusetts Public Health Council for permission to go for public comment in June, 2008. Language to be removed is sticken through and proposed new language is red lined. The attachment titled STATE REGULATORY STATUS (SRS) DATA SHEET shows the correspondence between the proposed regulations and equivalent amendments to NRC's regulations with RATS ID#.

We believe that adoption of these revisions satisfies the compatibility and health and safety categories established in STP Procedure SA-200.

If you have any questions, please feel free to contact me at (617) 242-3035 Ext.2001 or Salifu Dakubu at (617) 242-3035 Ext.2009 or [salifu.dakubu@state.ma.us](mailto:salifu.dakubu@state.ma.us).

Sincerely,

A handwritten signature in black ink that reads "Robert Walker".

Robert Walker, Director  
Radiation Control Program
