Dear Mr. Schutt:

This letter refers to the closed meeting at the Nuclear Regulatory Commission's Region II office in Atlanta, GA, on December 20, 2005, during which we discussed human performance enhancements, conduct of operations, safety and compliance challenges, staffing challenges, and new facility start-up challenges. Specifically, we discussed the NFS Safety and Compliance Culture Policy, the NFS Safety and Compliance Conscious Work Environment Policy, your successes with the problem, identification, resolution, and correction system, and the Business Process Improvement initiatives. The meeting was beneficial and provided the NRC with an acceptable level of confidence of your plans to improve your facility's performance in the above areas.

The names of participating attendees at the meeting and a copy of the presentation used by NFS are enclosed.
