Dear Dr. Sharma:

Enclosed is Amendment No. 95 amending your NRC Material License No. 13-01284-02 in accordance with your request. Please note that the changes made to your license are printed in **bold font**.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

As we discussed by telephone on May 5, 2008, we have not added Dr. Chang as an authorized user at this time because the information that was submitted to add him as a user was incomplete and confusing. Please see the enclosed memo. Also, please be advised that you are responsible for submitting complete and accurate information to the NRC (10 CFR 30.9 (a)). Please see the enclosed NRC Information Notice 2007-38. If you wish to pursue this matter, please resubmit your request (information needs to be complete and accurate) as additional information to **Control 317006**.

NRC's Regulatory Issue Summary (RIS) 2005 31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>.
