APPLICATION FOR MATERIALS LICENSE

Dear Mr. Mollauer:

In response to our telephone conversation on April 16, 2008 requesting clarifications of several items in regard to our Application for Nuclear Regulatory Materials License, please see the following:

- Mr. Scot Hughson's Radiation Safety Officer Certification is attached;
- Mr. Scot Hughson  accepts the responsibility for performing the duties of RSO;
- Nuclear density gauges will be stored at the location described in the license application and the gauges will be utilized at temporary job sites; and
- Non-Routine Maintenance will be performed by the gauge manufacturer or firm authorized by the NRC or Agreements to perform gauge repair or calibrations.

Thank you for your cooperation in this matter. If you have future questions, or if I may be of further assistance, do not hesitate to contact me.

Best regards,

Fall Line Testing & Inspection, LLC

Scott C. Nichols
