Nuclear Regulatory Commission
Re: EnergySolutions Import License Application IW023.

Gentlemen,

Nuclear waste disposal is a difficult enough problem when we are faced with disposal of our own nuclear waste. To consider doing the same for another country is outrageous. If Italy, or any other country, wishes to operate nuclear reactors then they must develop their own disposal systems. No American company should be allowed to pollute our country with someone else's dangerous, nuclear waste.

I believe it was France which developed a means of re-processing their nuclear waste into re-usable nuclear fuel. Expensive, no doubt; but nonetheless the most practical approach anyone has developed to date.

I oppose the NRC permitting foreign persons, companies, organizations, or governments to dump nuclear waste within the borders of the United States or any of its territories, or possessions.

Respectfully,

James Hugh Murray
