Subject: EnergySolutions Import License Application IW023

I wish to express my strong objections to the importation of foreign nuclear waste into the United States. In particular, as a Tennessee resident, I strongly oppose approval of the license application for the importation of nuclear waste from Italy to be processed in Tennessee and disposed of in Utah.

There are many reasons why this application should be denied. One is the danger of transporting the nuclear waster (both before and after processing) over the highways and/or rail system in Tennessee.

I request that you deny Application IW023 and all future applications of this type.

Regards,
Susan Costello
