**To:** Hearing Docket  
**Subject:** Nuclear Waste Transport

Dear Madame or Sir:

The production and disposal of nuclear waste is a huge problem on several levels. There are implications for personal safety, ecology, and security. When you toss in the transportation of these wastes around the country and around the world, you magnify each of the issues listed. Nuclear wastes need to be made, processed and stored on site. Any transportation increases risks on all levels. Please deny the application of the Utah-based company that wants to transport wastes from Italy to Tennessee for processing, then to Utah for disposal.

Sincerely,  
Jeannine Meyers  
Lebanon, TN
