This is in response to a mailing sent by Bart Gordon In regards to allowing Italy to dump nuclear waste near Oak Ridge Tennessee. I am a constituent of this area and am very much against this idea. I would be against it if it were going anywhere in the U.S. Tennessee is like most of this country, on an earthquake fault. What would be the result if we should experience a severe quake? If any country want the benefits of nuclear power, they should bear the responsibility of disposing of the waste in their own country.

Thank you.

Forrestine Werns
