OFFICE OF SECRETARY  
RULEMAKINGS AND  
ADJUDICATIONS STAFF

Hello,

I've just found out about this and must ask that you refuse to let this waste to come into our state. I can't begin to imagine what went through people's mind to think this might be acceptable given all the possible things that could go wrong. How did our country become the dumping ground? How did our state become the 'clean-up' crew of the most dangerous materials known to man? This is my problem about accepting nuclear power as the cleanest of energy, this is not clean, it's the most dangerous of nightmare scenarios.

I'm from Oregon but I'm now a citizen of TN, 2 of my children have made homes here and I will be staying as 11 of my 13 grandchildren live in this state. I want them to be safe, to be healthy, and I'm trying to teach them about taking responsible for their actions, which with this kind of thing going on is making it even harder to do. I've taught my own children to take responsibility and most of all leave this world a better place when the time comes and am working on this constantly with my grandchildren. Would you PLEASE tell me how to continue to do this with you guys doing this kind of thing and risking their lives? I taught them pick up paper when they drop it on the ground, recycle as much as possible, care about the world they live in and the people in it, How do I explain the blatant disregard for our healthy and safety, for the well being of what they call home? There is just too much danger, man and machine are fallible,

I don't know if anyone will every read this, but I had to write it. There will be many more replies to this, much more intelligent people than I will know the intricate details of the materials, the mistakes, they will know just how much someone's getting paid to allow this to happen here in our

state. What I add is just one Person's opinion, one Woman's, one Mom's, one Grandmom's, Wife's, Daughter's, Sister's, Friend's, Neighbor's, you know, there really is a lot to me and my 'just one person's opinion comes from my heart. Let me count! Please don't allow this, help me keep my family safe!

Thank you,  
Patti Bennett
