Hearing Docket

Subject: Importation of Nuclear Waste

To Whom It May Concern:

We do not want nuclear waste imported into our country or our great state of Tennessee. This may be the "Volunteer State", but this is going too far. The United States has enough problems with our own waste and by-products. Italy's waste should be handled by the Italian government and its people. Why is this even being considered? If it is about money, then the United States should be the one to export waste to all of the countries around the world that receive monetary aid from our government. Do not let this happen.

Sincerely,
Thomas Moran
