Subject: nuclear dump

What? Are you all crazy? Don't we have enough problems in this country without importing other countries nuclear waste? Is there no sanity left in our government? Will there be nothing left of this country for our grandchildren? Even a preschooler would know this is totally unacceptable. And why is it always Tennessee? Havent we been a big enough dump for the rest of this country let alone other countries? No wonder environmental issues have stalled our growth and economy. With decisions like this I could become a tree hugger myself.
