**Subject:** EnergySolutions Import License Application IW023

I say we do need to be the dumping ground for the world's nuclear waste. We have enough of this with our own waste, why should we be expected to take another country waste. The US has helped countries around the world only to have them turn their back on us. We need to stand on our own feet and tell the NO.

Please do not allow any more nuclear waste into the US from any other country. Would you want this in your back yard? How about in the town your family lives in? How about going down the road and having an accident with one of the truck and the waste spills out? It is to dangerous to put our families at risk.

Thank you,

Finis Arnold
