**To:** Hearing Docket  
**Subject:** Nuclear Dumping

I agree with Bart Gordon that the United States should not be a dumping ground for nuclear waste. This is something that will reap havoc on our country for generations to come.

We need to work at drilling for oil from our locations (Alaska) and offshore, at least for the short term, while we learn ways for our power needs for the long term.

Other countries of the world should be able to take care of their own waste as we have learned to do. I bet we could show them how and everyone would be happy.
