Re: Energy Solutions Import License Application IWO23

The United States could become the world's nuclear dumping ground unless action is taken. We have a limited amount of space for nuclear waste. Other countries should bear the responsibility of disposing of their own waste.

When are we going to stop instigating projects that would ultimately hurt our country??? It might be different if they were waiting in line to help us when help is needed. Just haven't seen that in my lifetime.

The plan just doesn't make sense. Trash it.

Maxine S. Linderman (Mrs.)  
A Tennessee Resident
