DOCKET NO. 11005711

2038

From: Melvin Hebert [mrbear1@bellsouth.net]
Sent: Tuesday, May 13, 2008 9:03 AM
To: Hearing Docket
Subject: nuclear waste disposal

To whom it may concern:

This is in reference to the company applying for a permit to bring nuclear waste into America (Tennessee) from Italy for processing and the remainder to be stored in (Utah). My response to this is an emphatic NO. There is no reason logical or otherwise that could justify this operation. They have mountains and they can dig holes to store the waste in. This should have been one of their primary requirements to be addressed prior to adopting their strategy for nuclear power generation.

We should not and must not become the dumping and storing ground for nuclear waste for all the world. In this respect the World needs to suck it up and except their responsibility for their strategies concerning power generation.
