RE: EnergySolutions Import License Application IW023

We are highly opposed to the importation of foreign nuclear waste to the U.S. and feel other countries, such as Italy, should bear the responsibility of disposing of their own nuclear waste. Our country has enough issues right now and does not need to become a dumping ground for the world's nuclear waste, nor does it need to be saddled with monitoring the disposal of imported waste in our country. The United States has a limited amount of space for its own nuclear waste.

As we reside in Tennessee, we are also highly opposed to imported waste being incinerated in our state and transported across our highways.

We implore you to NOT approve the above referenced application.
