**Attachments:** image001.gif

I hope you consider what is in the best interest of the citizens of the country rather than the interest of a profit-motivated large corporation when you consider the application to import nuclear waste into this country. This puts the citizens of this country at risk as the nuclear waste is transported into this country, it leaves our children with the job of monitoring the disposed material for years to come, and it leaves fewer "good" places to dispose of the nuclear waste that is created in our own country.

Sharon Hoffman
