**Subject:** Nuclear Waste

IF we are going to deal with nuclear waste at all it should ONLY be waste created in this country. Hazardous waste is just that, hazardous. It only makes sense to limit our exposure, and responsibility, to our own country and our people. Let other countries be responsible for their hazardous waste. On the subject of business (. . . somebody is going to profit from this waste . . .), let our businessmen profit from helping our country. There is enough business that needs taking care of right here.
