NO NO NO NO NO NO NO NO outside nuclear waste in the United States. We can't even control the waste output of our own Country much less take it from other countries.

Wake up and smell the coffee (if we still have noses to smell with after all of the waste we bring in). Big business and the desire for the almighty dollar are killing the United States.

When there are no able bodied citizens left to work what are you going to do then?!?!?

Ban the importation of foreign nuclear waste into the United States.
