Subject: Nuclear Waste Disposal

Secretary, U.S.Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Sir or Madam:

I am Norman W. Cavender, 3311 Yorkshire Court, Murfreesboro, TN 37130-1319. I will be 82 years of age on November 28, 2008, Lord willing. I am a U.S. Navy veteran of World War II (January, 1944 - July, 1946), honorably discharged after the war was over. I am married, the father of 4 honorable and law-abiding sons, the grandfather of 7 grandchildren, and the great-grandfather of 4 great-grand- children. My wife and I will be married 60 years, June 17, 2008, if the Lord wills. *I have loved my country and have been a law-abiding citizen all of my life. We own our property and our home in Tennessee, and try to live a quiet and peaceable life.*

I want to very strongly protest any effort to bring nuclear waste(s) into our good and beloved country. We have enough waste(s) and problems of our own, without the importation of the problems of others.

If a nation wants to and chooses to go the route(s) of nuclear energy and development, then let them deal with their own problems of such efforts and the results thereof, including the disposal of the waste(s) involved. If they cannot abide with the results, then they should not create the problems and difficulties associated with such forms of energy.

I hope our Congress and our President, whoever he/she is, will very vehemently oppose any efforts to bring such waste(s) into our country. We don't need to impose these problems upon ourselves, and upon our offspring for untold centuries and generations.

Thanks for listening - and for being sensible about our beloved country. Sincerely, Norman W. Cavender
