Subject: I am with Congressman Bart Gordon!

I am a proud Tennessean!

I am a supporter of Congressman Gordon trying to pass H.R. 5632.

I am outraged that you would consider bringing outside nuclear waste into our country and my state of TN. For once think about people and our beautiful country instead of the all mighty dollar. Nuclear waste in our streams, water systems, food and air causes cancer and many other problems. Please for once think of something other than money!

It amazes me how so many of you sit behind these big desk in a huge building and not once think about us and the impact your decisions make on us and our children. I am very thankful that we have a congressman like Bart Gordon watching our backs!

NO FOREIGN WASTE!

"I don't want to see the United States become the world's nuclear dumping ground, but that could happen without action," said Gordon. "Many other countries do not have adequate space for their nuclear waste, and I'm sure they would be happy to send their waste to the United States and be rid of it forever. That might be a good deal for them, but that plan is simply not in the best interest of the United States."

A very concerned Tennessean.
