Subject: EnergySolutions Import License Application IW023

NO.

We cannot continue to be the dumping ground for the world's excess of anything, especially toxic waste!! The money we make from accepting this waste now will pale in comparison to the money it will take to clean up our soils, and make sure our children do not suffer the consequences of our actions. Let these countries take care of their own messes for once. We should focus on the problems with our own waste, our own transgressions, our own mess we currently have.

Amanda Beaty
