Re: Mail Control Number 316781
USNRC License # 13-02650-02

Dear Ms. Casey:

On December 10, 2007, we submitted a request to amend our license.

Now we have received Amendment No. 39 to replace Amendment No. 38.

In reviewing the amendment, we noticed that we had requested several changes that are not included in the final amendment including:

1. Sub-item No. 6. E.
We have disposed our 300 Kilogram Depleted Uranium.
2. Sub-item No. 9. H.
We no longer have animal study and research, 10CFR 30.4.
3. Sub-item No. 13.
We no longer have animal research.
4. Sub-item No. 12. C.
Brett A Stephens, M.D. no longer uses Technetium-99 for animal research studies.

Please also note, our VariSource HDR Remote After-Loader Unit, does not have Depleted Uranium. Therefore, the Sub-item No. 6. E. also should be omitted from Sub-item 10. B.

Would you please make the above- mentioned corrections to Amendment No 39?

Respectfully,

Lori Price
Chief Operating Officer
Saint Joseph Regional Medical Center
