Subject: EnergySolutions Import License Application IW023 - I am in FAVOR of this application

To Whom It May Concern,

I am one of U.S. Rep. Bart Gordon's constituents, and he has asked his constituents to let their concerns be known to you - the Nuclear Regulatory Commissioners.

I teach chemistry and physical science at Middle Tennessee State University (23,000 students), and prior to that I worked for the US Dept of Energy as a research scientist at a nuclear weapons research lab (Los Alamos).

All of my life experiences, as well as my current concerns for the economic vitality of this GREAT country (which I CHOSE to call my home, since I am a naturalized US citizen), not to mention the availability of GOOD high-tech jobs for my current and future students (most of whom are also Rep. Gordon's constituents), lead me to ask you to SUPPORT the Import License Application that has been submitted by EnergySolutions.

Thank you for considering my professional opinion on this matter before you.

Preston MacDougall
