

May 3, 2007

Mr. Dwight B. Ferguson, Jr.
President and CEO
Nuclear Fuel Services, Inc.
1205 Banner Hill Road
Erwin, Tn 37650

Dear Mr. Ferguson:

The Commission looks forward to your presentation on NFS safety [REDACTED] issues on Wednesday, May 30, 2007. The meeting will begin with a brief public presentation by the NRC staff on material and waste performance trends generally at 9:30 a.m. in the Commissioners' Conference Room on the first floor of the Nuclear Regulatory Commission's (NRC's) headquarters building at One White Flint North, Rockville, Maryland. The Commission then will adjourn to the Executive Conference Room on the 18th floor to continue the staff's presentation, followed by your presentation, in a closed session. I am enclosing a copy of the draft meeting agenda for your information. The public portion of the meeting will be webcast live at the Web address: www.nrc.gov.

To assist the Commission in preparing for the meeting, please send a copy of any written material to Ms. Michelle Schroll in the Office of the Secretary by May 23, 2007, so that it can be distributed to the Commission for review in advance of the meeting. Please be sure that the material is appropriately marked for proper handling.

Your presentation at the Commission meeting should be based on the assumption that Commissioners are familiar with the content of your written material. Please plan your oral presentation for 20 minutes or less, discussing the important points on which you wish to focus the Commission's attention.

NRC Headquarters is located opposite the White Flint Metro Station on Rockville Pike and Marinelli Drive, Rockville, Maryland. Reserved visitor parking for Commission guests is also available. If you wish to use reserved parking, please notify Ms. Schroll (rms1@nrc.gov) in advance.

Sincerely,

/RA/

Annette L. Vietti-Cook
Secretary of the Commission

Enclosure as stated.
