The District of Columbia Homeland Security and Emergency Management Agency (HSEMA) approves your request to submit the District's emergency response plan to the U.S. Nuclear Regulatory Commission as part of your application for a US ERP nuclear power plant to be located adjacent to the Calvert Cliffs Nuclear Power Plant in Lusby, MD.

HSEMA is willing to participate in any further development of the emergency response plan, including any required field demonstrations, if found to be needed, and work with UniStar Nuclear to identify any needed changes to execute our responsibilities under the existing emergency response plan in the event of an emergency.

If you have any questions, please contact myself or Steve Kral of my team at (202) 727-6161.

Sincerely

Darrell Darnell
Director, HSEMA
