Subject: Nuclear dumping

I am strongly against our country taking in nuclear waste from other countries. I see a time when we will harness more nuclear power here in the United States, and when that day gets here, we will need to be able to dispose of our own waste. What will we do if our stores are full?

Let's slow down and think long term on this subject. Please think about our future, not the short term gain.

Thank you in advance,

Gary Ellis
