Re: **In The Matter of Pacific Gas and Electric Company
(Diablo Canyon Power Plant Independent Spent Fuel Storage
Installation); Docket No. 72-26-ISFSI**

Dear Commissioners:

Pacific Gas and Electric Company ("PG&E") has previously indicated to the Commission its plans to load spent fuel at the Diablo Canyon Independent Spent Fuel Storage Installation in the summer of 2008. In order to keep the Commission informed of material schedule changes, this is to advise that the dry cask storage facility and modifications to the power plant to support dry cask storage processing will not be completed until late 2008, and the initial movement of spent fuel to dry cask storage is now scheduled to begin in June 2009, following the steam generator replacement outage scheduled for January through April 2009.

Sincerely,

David A. Repka
Counsel for Pacific Gas and Electric Company
