Secretary
U.S. Nuclear Regulatory
Commission
Washington, D.C.

April 20, 2008

Dear Secretary,

I object to nuclear waste from Italy being sent to Utah on many grounds. People who produce nuclear waste should be responsible to store it. The oceans and other countries and states should not be subject to spills while transporting waste. The problem of waste storage should be solved before more is created. As a resident of Salt Lake City, I should not be subjected to possible exposure or my land degraded so that one company, Energy Solutions, can make a profit. Too many mining companies and chemical companies have left areas

Contaminated after they have made their profit at taxpayers expense.

Let's develop a national policy on the disposal of waste from other countries. Let's protect our country's beauty. Let's stop letting profit be our only motive. Government is here to protect the people. Not just from religious terrorists, but from environmental threats as well.

Stand up! Do something to protect the American people. Please.

Sincerely,

Mary Beth Whittaker
