Attention: Rulemaking Livingston, TN, Ref  
US Nuclear Regulatory Commission 38570

I understand the gov. is **2348**  
considering using the US as a  
dumping ground for nuclear waste.  
This is absurd! This is proof of  
taking place because we need a  
favor from Italy - like soldiers  
for Iraq!

Everyone I talked to is  
against this idea.

We have enough trouble  
dumping our own waste.

Do not let this move  
forward.

Sincerely,  
R B Revilla
