**SUBJECT: TERMINATION OF BUCKO CONSTRUCTION COMPANY, INC., NRC
RADIOACTIVE MATERIALS LICENSE, LICENSE NO. 13-26486-01**

Dear Mr. Gouveia:

By letter March 26, 2008 (submitted by facsimile on same date) you, as Trustee of subject licensee's assets requested that we terminate NRC License No. 13-26486-01, (having expiration date of March 31, 2008). This license authorized portable gauge use/storage at their facilities located in Northern, Indiana, and usage at temporary job sites of the licensee anywhere in the United States where the U.S. Nuclear Regulatory Commission maintains jurisdiction for regulating the use of licensed material. In the referenced document and subsequent documents, you provided information confirming the transfer of both portable gauges the licensee possessed to another entity licensed to possess the gauges. You also provided information showing leak tests of all sources were current as of the time of transfer and these tests confirmed the non-leaking status of the sealed sources transferred. Based on information you have provided to us, we have concluded that licensed material is no longer used or possessed under NRC License No. 13-26486-01 and that the licensee's facilities meets NRC criteria for release for unrestricted use, permitting us to terminate the license as requested. Accordingly, an amendment is enclosed, terminating your NRC License No. 13-26486-01.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

A handwritten signature in cursive script that reads "Loren J. Hueter".

Loren J. Hueter
