13. Notwithstanding the requirement in 10 CFR 35.22, the licensee is not required to establish a Radiation Safety Committee.
14. The licensee shall have its survey instruments calibrated by persons who are specifically licensed by the Commission or an Agreement State to perform such services.
15. The licensee shall obtain personnel dosimetry equipment from a vendor who is NVLAP approved.
16. **The licensee is authorized to transport licensed material in accordance with the provisions of 10 CFR Part 71, "Packaging and Transportation of Radioactive Material."**
17. **In addition to the possession limits in Item 8, the licensee shall further restrict the possession of licensed material to quantities below the minimum limit specified in 10CFR 30.35(d) for establishing decommissioning financial assurance.**
18. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed below. This license condition applies only to those procedures that are required to be submitted in accordance with the regulations. Additionally, this license condition does not limit the licensee's ability to make changes to the radiation protection program as provided for in 10 CFR 35.26. The U.S. Nuclear Regulatory Commission's regulations shall govern unless the statements, representations, and procedures in the licensee's application and correspondence are more restrictive than the regulations.
- A. Application dated June 14, 2002; and
- B. Letters dated August 10, 2004, and January 21, 2008; and
- C. Facsimile letters dated September 8 and 9, 2004 and April 30, 2008.
